## TSG Forwarding expands in Mälardalen

**TSG Forwarding AB strengthens its position and growth in the Mälaren Valley through the acquisition of J&S Transport & Spedition AB in Västerås, on February 6, 2023.**

On February 6, 2023, TSG Forwarding acquired J&S Transport & Spedition AB in Västerås. J&S was founded in 1993 by Jan Apel and Stefan Lindström. They are specialists in warehousing and transport of heavy and bulky goods. In the heated warehouse there are several overhead cranes where the largest have a lifting capacity of 400 tonnes.

The business J&S Transport & Spedition AB will retain its company name, and will continue to be run by the staff on site, under the leadership of Daniel Berglind, CEO of TSG Forwarding AB.

Daniel sees great potential with J&S as part of the group in broadening its total activities both in terms of operations in more locations and with new services.

– With the acquisition of J&S, we are strengthening our project transport part. We are impressed by the business that Jan and Stefan have built, and it is an honor to continue to run a company with such great potential, says Daniel Berglind, CEO of TSG Forwarding AB.

- J&S's geographical location in Mälardalen and Västerås also fits very well strategically for us as we have our head office in Västerås, continues Daniel Berglind.
